Re: Road Repaving

Dear Customer:

Thank you for your patience as the Turkey Creek Regional Sewer District (the “District”) completes its Eastshore/Northshore sewer project (the “Project”). In today’s construction environment there are always unknowns, and the District has worked tirelessly to complete the Project as quickly and efficiently as possible.

We are happy to announce that Niblock Asphalt (“Niblock”) has scheduled four dates for paving the roads on Eastshore Drive, Northshore Drive and Shore Lane. Niblock will be paving on Monday, October 17, 2022; Tuesday, October 18, 2022; Thursday, October 27, 2022; and Friday, October 28, 2022. These scheduled dates are weather dependent and are subject to change if Niblock is delayed due to inclement weather. However, they will be working diligently to get the roads paved on these dates and cause as little disruption as is necessary to complete the paving. Niblock will be placing tack on the road surface; this tack is extremely sticky and will stick to your tires. This tack material will temporarily stain your driveways, if driven on, and can be difficult to remove. To avoid staining your driveway, **please refrain from driving over the tack and then driving on your driveway**. This will be a temporary disturbance that will be completed by the end of each workday. Unfortunately, Eastshore Drive, traffic will need to be limited to one direction during the duration of this repaving work from the south end of Eastshore Drive heading north.

We apologize for any inconvenience, but we look forward to completing the Project and providing you with excellent service.

Sincerely,

Turkey Creek Regional Sewer District
